In the eastern precinct a voter offered as his ballot one of the sample ballots used by Halpin's friends. The judges and clerks for the opposition candidates said only the official ballots, issued by the committee, could be used. This led to a quarrel, in the course of which the Halpin judges took possession of the pile of ballots. Thereupon the judges of the other two delegations ordered the door closed. In the west precinct a quarrel was started over some alleged encroschment by the police, and the polis were promptly closed. Voting went on in all of the other wards, but on account of the contest in the slikth and Twelfth wards, only very little attention was paid to the others. In one Twelfth Wards, precinct the primaries started in a tent, but the place was too hot for the judges and clerks, so they moved to a basement near by.

SEA GIVES UP LOOMIS'S BODY

Corpse of American Envoy Found on Beach at Warren Point in Bigbury Bay.

IS IDENTIFIED BY CONSUL.

Card in Pocket Bears Name in Full-"To Kent Loomis"-Inquest Set for Monday.

King's Bridge, Devonshire, July 18.-The body of F. Kent Loomis, who disappeared from the North German Lloyd steamer Kaiser Wilhelm II, June 20, as that ves-sel was nearing Plymouth, was found by a laborer this morning at Warren Point, adjacent to Thurlestone Sands, Bigbury Bay, some fifteen miles from Plymouth. The body was dressed in a gray overcoat,

dark blue suit and white shirt.

Thomas, who made the discovery, at once informed the police and neighbors. When the body was searched a gold watch, a quantity of American and English money in notes and coins, were found in the pockets of the deceased, and also a card with the name, "F. Kent Loomis." The pockets also contained a number of private papers. These, together with the valuables, the police took charge of and the body was placed in a farm building at Thurlestone village to await the inquest, which will be held July 18. CONSUL NOTIFIED.

It was late to-day indeed before the significance of the discovery was grasped by the authorities of King's Bridge, the nearest town, but this evening the police of Thurlestone said there was no doubt that the body was that of Loomis, The features were partly recognizable from the description, but there was no one on the spot until a late hour who could positively identify the remains. The American Consul at Plymouth was notified this afternoon and he at once proceeded to Thurlestone for the purpose

of making an official identification. After viewing the body to-night the Consul said he had no doubt it was that of F. Kent Loomis. The police, however, refused to allow the Consul to examine the papers found on the body. These papers had been sealed up and the Consul was informed that he must obtain the permission of the Coroner to inspect them.

Up to a late hour to-night this permission had not been secured. All jewels also had been sealed up.

The American Consul has arranged that proper care be taken of the body. ABRASION UNDER EAR.

In an interview with the representative of the Associated Press the Consul said there was an abrasion under the right ear. There were no important papers on the body, and the deceased's watch had stopped at 6 o'clock. It will be remembered that the steamer Kaiser Wilhelm II. from which Mr. Loomis disappeared, arrived at Plymouth at 2 o'clock in the morning.

FAMINE FELT KEENLY IN NEW YORK CITY.

REPUBLIC SPECIAL. New York, Ju'y 16.-The meat famine was felt in this city to-day as it has not been felt before since the strike was declared. Few of the marketmen have more than enough meat to last them past the night, and scores of shops have already closed their doors. Some have remained open for the sale of hams and other oked meats, for which they charged an

smoked meats, for which they charged an advanced price.

Every grade of meat went up from 2 to 4 cents more to-day, making the increase over normal prices from \$ to 15 cents. Scores of butcher wagons surrounded packing houses along the North and East River fronts, but few of them went away yith loads. The independent sianghter-houses are working men night and day, but cannot begin to meet the demand.

The prices are now so high that the poor in every part of the city are unable to buy meat, and to increase their hardship, the prices of cereals, eggs, poultry and the like have also gone up. The situation has become serious and the police are preparing for trouble.

Extra police guards have been placed on duty in the various packing-house districts. For not only are they surrounded by strikers, but the East Side butchers who have agreed not to buy meat at existing prices are there to prevent anyone from breaking the agreement.

IN WORKHOUSE SUPPLY. ST. PAUL SHERIFF MAY CALL FOR THE MILITIA.

St. Paul, July 16.—Sheriff Grisim of Dakota County this afternoon issued an ultimatum to the striking butchers at South St. Paul that, shees they show a disposition to recognize the authority of the Sheriff and his deputies, the situation will be brought to the attention of Governor Van Sant and that the State militia will be asked to take charge.

The ultimatum is the outcome of the disregard shown to-day for the Sheriff's orders and the treatment he personally received in an effort to open the cordon and send men through the packing plant. A report from South St. Paul puts a more serious aspect on the trouble there to-day, and says it was due to an attempt on the part of Superintendent Burns to rush a party of twenty-flye men through the dense line of pickets in front of the entrance to the packing plant.

The effort to put the men through came immediately after Sheriff Grisim's arrival from St. Paul. A conference was held and Superintendent Burns collected his men. Headed by the Sheriff, Superintendent Burns ande Secretary Beek of th Citizens' 'Association of St. Paul, the party made for the lines.

FIRST REGIMENT **GOES INTO CAMP**

National Guard of Missouri Encampment Commences at Nevada To-Day.

MARTIAL SCENE AT STATION.

No Social Functions Will Be Held and the Time Will Be Spent in Military Training.

Union Station presented a martial appearance last night when the First Regi-ment of the National Guard of Missouri departed for the yearly encampment at Nevada, Mo.

Five hundred khaki-clad men marched through the station, each looking soldiery, and full panaplied for war. eccoutrements, campaign hats and leggings did not in all cases seem in accord with the sallow faces of the militiamen. but each man bore himself creet and

looked every inch a soldier.

A heavy woolen blanket was carried by each guardsman. It was rolled and slung across the shoulder. Beneath this were the crossed ammunition belts tightly strapped over the closely-buttoned uniform coat. It was warm in Union Station yesterday evening, and it was considered trations. The majority of the members of the National Guard wear a soft shirt and a Parama hat in their private capacities. Each soldier also carried a bayonet in a cheath by his left side and a large tin cup dangled by a string from his belt. Each bore his rifle, and used it to lean upon while he conversed with the friends who were at the station to bid nim a tearful addeu.

There seemed to be two girls to each departing soldier, and the impression seemed to prevail that the First Regiment of the National Guard of Missouri would never return. The maldens hung to the khaki arm until the cruei gateman turned them back. Then they went to the iron fence and waved good-bys with moist handkerchiefs.

The regiment went in two divisions, the one on the M. K. & T. in charge of Major N. G. Edwards and the one on the Missouri Pacific in charge of Major W. H. Cocke.

The entire regiment is under the command of Colonel Frank R. McKenna.

The encampment will differ from others in that all social functions are to be done away with, and the week devoted to drilling, marching and millitary training.

The feature of the encampment will be a two days' march across the country, the regiment carrying its tents and provisions with it.

Other troops of the National Guard from the National Guard wear a soft shirt and

with it.

Other troops of the National Guard from other sections of the State will be at the encampment, as will the State officers.

The regiment will return to St. Louis the night of July 25.

CHARLES BOESCHENSTEIN MAY BE THE CHAIRMAN.

This week will see a change in the leadership of the Democratic party in Illi-nois. Notices have been issued for a meeting of the new Democratic State Committee at the Sherman House Chicago, at which organization will be effected and preliminaries of the campaign discussed.

John P. Hopkins of Chicago, chairman of the committee for the last four years, of the committee for the last four years, has amounced positively that he will reture. He departs for Europe after the committee meeting, but will return and participate in the campaign. In an interview he makes this statement.

"I am not a candidate for re-election as chairman of the State Committee. I have had the place nearly four years and do

Personally I am in favor of Mr. Charles Boeschenstein of Edwardsville, for the place. He has been vice chairman of the committee two years and would make an excellent chairman." Samuel Alschuler of Aurora, candidate for Governor four years ago on the Democratic ticket, has been taking an active personal interest in Mr. Beschenstein's behalf, and has stated that the latter would prove acceptable to all divisions and in all portions of the State.

The committee meeting has been called for Friday, July 22, at the Sherman House in Chicago, It is understood that the headquarters of the committee will continue in Chicago and the campaign be directed from that city.

Charles Boeschenstein, who may be the new leader of the Illinois Democracy in the capacity of chairman of the State Committee, has long been active in politics. At different times he has served on county, congressional and judicial committees, and for two terms has been vice chairman of the State Committee. Two years ago he was chairman of the committee. Two years ago he was chairman of the committee in the campaign that ended in the election of James B. Ricks to the Supreme beench. His political aspiration was drawn from that stanch and deeply revered figure of the Illinois democracy, Colonei William R. Morrison of Waterloo, between whom and his younger friend there existed an intimate friendship.

Mr. Boeschenstein took an active part in the campaigns of 1896 and 1990, and has been consistent in his support of the party nominees, always what is now termed "regular." He was elected Mayor of Edwardsville in a nonpolitical campaign, but has never been a candidate for political office.

Less than a year ago Olga Boralenska graduated from the Kalseren-Koenige Art School in Berlin. It was her ambition to

be a great artist and designer. Her work during her college course had been such as to win for her the highest praise, and in Germany she had been offered several positions with concerns engaged in the decorating business.

Many of her designs made during her school days had been accepted by large wall-paper manufacturers and decorators But Olga was ambitious, and decided that the place for her was America. She is also a portrait artist of ability, and thought that in the United States she would quick-

that in the United States she would quickly win fame and fortune.

To-day Miss Boralenski is one of the
chorus girls in "Louisiana" at Delmar
Garden, and is accounted one of the best
dancers of that organization. She is seen
nightly as one of the Russian girls, and
has made a great hit, both on account of
her grace and unusual beauty. She is recognized as the handsomest girl in the
company, her beauty being of a type that
attracts great attention.

Miss Horalenski is one of a family of
eight girls, all of whom are now on the
stage—six in Europe and two in the United
States, for the Deimar "Louisiana" has
two of them.

The Misses Boralanska rented a small
flat, where they do all their own work, including the laundry work. They frankly
confess that they do not intend to make
America their home many years. No matter bow late the performance on the night
before, they are always up at 7 o'clock in
the morning and about their home dutes.
They make all of their own clothes and in
addition to this Oiga still finds some time
to work at her designing. She has sold a
number of patterns to decorators during
the two months she has been in St. Louis
"We will save our money," said Oiga, in

broken English, "for we will go home as soon as we can. We want to see America and we want to go to Mexico. I do not like to dance, but I can get a chorus engagement ensier than I can find work as an artist."

SHERIFF DEPUTIZES STRIKE LEADERS.

Twenty-Five Unionists Sworn In to Preserve the Peace in East St. Louis.

MEN SMUGGLED INTO PLANTS.

St. Louis Dressed Beef and Provision Company Has Trouble With Foremen Over Employment of Nonunion Workmen.

Sheriff Thompson of Beileville Yesterday at East St. Louis deputized twenty-five of the leaders of the strikers. Sheriff Thompson took this action, believing that the strikers were familiar with their fellow-employes and would be better able to keep an eye on those who might need watching. The majority, if not all, of these men who were deputized by Sheriff Thompson had been previously deputized as peace preservers by the officers

Sheriff Thompson states that he has vanced their prices liberally. Some dealers had difficulty in getting citizens to act as

Deputy Sheriffs. All men who apply for work at any of the packing-houses are quickly accom-modated. It was stated that about 200 men were smuggled into the plants yesterday without the knowledge of the union pickets, who are stationed all around the plants. It was rumored that a train load of negroes was on the way to the stock yards, but this rumor could not be verified. Two freight cars, it was reported, had been used Friday night to carry negroes to the stock yards, and the strikers heard of it and opened the doors. The negroes wer frightened and ran

FOREMEN JOIN STRIKERS. The foremen of the East St. Louis packing-houses, who are either union men or mion sympathizers, were called out at 2 o'clock vesterday afternoon to join the general strike. By 6 o'clock almost every foreman who had remained in his place since the strike began had added his name to the list of strikers.

It is reported that the leaders of the strike will meet to-day to consider the advisability of calling out the engineers and firemen in the packing-thouses. This is about to be done in retaliation for the action of the packers in attempting to supply the places of the strikers with nonunion

Should this step be taken, as those who are familiar with the situation say it will be, it will leave the packers with nearly 2,000,000 pounds of fresh meat on their hands, which it will be almost impossible for them to handle, since they can hardly supply the places of the engineers and firemen, and their cooling plants may have to be closed down. With their foremen out and the firemen and engineers on the verge of striking, the situation for the packers is considered more serious

Every method of persuasion is used to prevent nonunion men from going to work in the place of the strikers.

SLIGHT DISTURBANCES REPORTED Several slight disturbances were reported yesterday, but were the result of mis inderstandings.

Thirty men en an East St. Louis street car bound for one of the packing-houses and shipped by a St. Louis labor agency on Market street got as far as First street and St. Clair avenue last night. There it was discovered that three of the men were armed and they were arrested by Sergeant Wilson and Deputy Sheriff Cashel. They gave their names as Willlam Hogan, Otto Blum and Henry Hazelton, all of St. Louis. They said that they had been employed to guard the crowd of thirty strike-breakers until they were safe inside the stock yards, and then to

deliver them to the Sheriff. They were locked up at the East St. Louis Police Station and charges of carrying concealed weapons were placed against each. Hogan had one revolver, Blum had a revolver and a billy, and Hazleton had two revolvers. After the arrest of the

which usually employs between 700 and 800 men, exclusive of the office force. President Thomas W. Crouch said last night that the company hopes by to-morrow to be in a position to continue killing. The company has on hand about 500 cattle and a few hors, but it is thought the present stock will not last longer than over tomorrow. Mr. Crouch said yesterday that very lit-

tle advance has been made in the price of meats and that the St. Louis Dressed Beef and Provision Company does not anticipate having to make any. Retail dealers generally throughout the city announce a considerable raise in prices, though there are several who have

made no advance except a slight one on pork chees and yeal. Retail dealers generally report that they have no difficulty in securing all the meat they need to supply their trade, and at prices not materially different from those which prevailed at the beginning of the strike. RESTAURANTS RAISE PRICES. Quite a large number of restaurants and

pound, while restaurant keepers have advanced the prices on steaks from 5 cents to 25 cents each Many restaurant keepers who have not advanced their prices say there is no accusion for any advance, since they can obtain all the meat they need at the same

Shot by Saloonkeeper. William Dunn, 20 years old, of No. 3121 Caroline street, was shot in the left foot last night by Robert Atkinson, a saloon-keeper at No. 3200 Gravois avenue. Atkin-son claims that Dunn entered his place and created a disturbance. Atkinson was arrested.

Bad Water

Liquozone. Bad drinking water is unsafe simply because of the germs in it. And the most common and dangerous are the

germs of Typhold. You can't filter these germs out, be-cause they are infinitely small. It would take seven billions of them to cover a postage stamp. And boilingeven long continued-is not certain to

But two tenspoonfuls of Liquozone make a glass of water safe. It not only kills the germs in the water, but it destroys all disease germs wherever the water goes. This wonderful ger-micide, made from oxygen gas, is so certain that we publish on every bot-tle an offer of \$1.000 for a disease

germ that it cannot kill. We put Liquozone in every glass of water served in our laboratory, and we serve it on the tables of our homes. And we have never known a case of Typhoid to develop where this was

Liquozone not only destroys the germ danger in water, but it insures one against sickness, for nearly all sickness is caused by germ attacks. trio the strike-breakers jumped off the car It makes the water a tonic, better than anything else in the world for you. And Office men and foremen employed at the it makes the water tart and palatable.

No person who once trick Liquozone.
